

## COVID-19 MESSAGE FROM THE CEO

**The COVID-19 pandemic has created a constantly changing landscape presenting many challenges. Protecting the health and safety of our colleagues, clients, shareholders, partners and trades is Walton's top priority. We are taking all necessary precautions regarding business operations and continue to closely monitor the rapidly changing situation while following guidelines from local health authorities, state and international governments.**

It is important that we keep our employees safe and are implementing necessary precautionary measures. Our teams are currently working remotely to leverage the full resources of our company throughout the regions where Walton operates.

As construction has been deemed an essential business, the safety of our trades is of utmost importance and we are following government recommended guidelines to mitigate risk.

We have adapted our communications to virtual seminars and webinars and are conducting online video meetings with staff, partners and clients.

With proper administration and management, we are monitoring all investments and continuing conversations with all potential purchasers to move forward to close transactions.

While recent events have significantly impacted the global economy, Walton is actively working with

our clients and suppliers to limit any disruption to business. Although it is not possible to estimate the full economic impact of COVID-19, our asset portfolio continues to be strong, and we are optimistic there will be many opportunities for it to grow.

We are extremely thankful for the dedication of our employees in keeping Walton fully operational and for all they are doing to mitigate challenges as they arise. We will continue to be vigilant and work together throughout this unprecedented time. We wish you and your loved ones to be safe and healthy. Thank you for your continued support of Walton.

Best regards,

**Bill Doherty**  
CEO
